LOCAL AND PERSONAL

Mrs. Ansell is visiting friends in Edmonton this week.

Cumulative hockey team play at the local rink tonight.

Jan. Twelfth of Edmonton was a business visitor here Friday.

Mr. and Mrs. McVetters and family spent the week-end with Mr. Cameron's friends.

Ben-Ton and Mrs. Sam Jones, of New Year's Eve, 1918, a daughter.

Chas. MacNair purchased one of the Mallie trailers from Bert Williams this week.

The regular monthly meeting of the W.I. was held in the hall on Saturday last.

Miss. Adams, of the local, had a party of business visitors from Edmonton the past week.

Alvin and Bagnon junior played their third game of the season at the rink last night.

The Ladies Aid will meet at the home of Mrs. Whitelock on Thursday afternoon of this week at 7 o'clock.

Mark Whitelock has sold his home, Mr. Kline, and leaves next week for jobs in British Columbia.

A home for the St. Peter's Ladies Guild will be held at the home of Mrs. R. E. Barnes on Wednesday, Jan. 20th.

The L.O.L. Lodge No. 2345 will have a banquet dinner on Friday evening, Jan. 25th. Watch for W.V.

The Ladies Aid of the Eastern Star will have a sale of new and second-hand goods for members and friends on Friday evening.

Messrs. G. A. Webb, Jan. 20th, and Messrs. D. A. McVetters, Jan. 21st, will be at the Alberta Hotel on Tuesday, January 19th, and the third Tuesday of every month thereafter.

Bert Brown has purchased the motor car on Williams St. and will have numerous alterations to the building and property before moving in.

Leander Bay, who has been visiting his parents, Mr. and Mrs. May, for the past few weeks, expects to leave again shortly for Detroit, Mich.

R. E. Cranston, manager of the local branch of the Royal Bank of Canada, is expected to return home this week from an extended trip to the east.

The W.I. will have a dance, which proved so popular last week, on Tuesday night, Jan. 21st, in the hall.

A surprise party was held at the home of Mr. and Mrs. W. W. Scott on Monday evening in honor of their son, Sidney, who is leaving school for Detroit. A most enjoyable evening was reported by all attending.

George school district meeting was held on Saturday last. Mrs. Phipps, having elected to the board, will be in charge.

C. E. Brewster, Fred Dowdell and Mrs. W. W. Scott, with Mrs. W. W. Scott, were in the hall on Saturday last.

Persons for visitors have their battery stored with Brown and Webb—best of service.

NAVY STORMS BRING HAVOC ON ATLANTIC COAST

Water Work. Nearly a score of the property damage and partial rupture of the pumps were remedied throughout the morning.

Uninjured. Although the water was high, no persons, including the sailors, Thompson, and the passengers, were injured. There was a small loss of property, including a trunk, a hat and a coat.

Free Ships. Two ships were reported in distress, and one, and the Irish bark, the *St. John*, was reported to have been running aground. It was said to have been on its way to reach port at Providence, R. I., but the bark was under repair and it was thought that the vessel was probably lost. It is believed that the vessel was on its way to reach port at Providence, R. I., but the bark was under repair and it was thought that the vessel was probably lost.

Losses. The loss of property was not great, and several ships were in distress.

Large Number of Workmen. In the larger cities, a number of workmen and hundreds of trucks and motor cars were put to work to remove the debris.

Howard Starts Teaching of Truth About National Merit

New York.—Sir James Howard, the well known broadcaster, who is an advocate of teaching children the truth about National Merit, gave a dramatic recital of many years' studying Howard, in a speech before the New England Society here approved the method of modern historians in teaching the true facts, even though it meant the loss of the "glories" of national heroism and make "famous" as agonists appear less monstrous than we view "slaves."

G.W.M.A. NOTES
The G.W.M.A. notes which took place in the Masonic hall on Friday evening, Feb. 12th, was an extremely well arranged affair. Much to the disappointment of the members and their wives and families, who turned up in full force, the most interesting and new presented from attending the of the winter. Those who were present, however, found it a most interesting and well arranged affair. The meeting was called to order at 8 p.m. sharp by President H. A. Nelson and a roll call of thirty-three members was taken after which the minutes of the last meeting were read by A. Bergquist, secretary.

Many Topics of Interest Came Before Regular Session
A large and successful meeting of the G.W.M.A. of the U.S. took place in the Masonic hall on Friday evening, Feb. 12th, with the usual good turnout of the members. The meeting was called to order at 8 p.m. sharp by President H. A. Nelson and a roll call of thirty-three members was taken after which the minutes of the last meeting were read by A. Bergquist, secretary.

 Western members of Life and P.
 America are launching a drive for the
 first real, long-term loan under the
 new law to be brought in by the
 congress.

Negotiations between the banks
 and the government have been going
 on for some time, but the
 results have been so far from
 satisfactory that the government
 has decided to launch a drive
 to get the loan.

The drive is being launched by
 the Life and P. members of the

 the first of the new members to
 be elected to the association.

James' Palace recalls the political tendency of the latter, contrary to the position in the United States, those bonds should not be tax free.

Willard A. Kravitz, a government economist, says that, according to the rural credit banks, according to reports compiled, would have to begin interest at this price rate in order to sell the bonds. The price would tend to change the former 7 per cent, at least one per cent will be required for the administration.

With a government guarantee, the bonds would be sold at 95 per cent, a 5 per cent interest, which, after the

Extensive government action is demanded by the fact that the Laramie project is officially dead. No action is necessary on the part of the Laramie team to result outside the terms of the agreement. The Laramie team is the team that will apply to the fact that Laramie's action is officially stopped.

It is possible for government action to be taken in the future to support Canada's position.

Early in the present month, Hon. Charles Lapointe, government leader in the House of Commons, has announced that he is disappointed, that "no step will be taken by the government before parliament has been assembled in the usual manner." He added that "the government will not be able to do anything until the session is opened in parliament."

The first steamer took the Atlantic service as the *Great Western*, left on August 13, 1831. The longer this celebration is delayed, the more it will excite the indignation of the

congressmen on "Irish," that results in the total rejection which any community put under "Irish laws."

"We will,"

immigrants' perceptions about the country's future. "I don't think we're going to be able to do anything about it," says a 25-year-old woman from the Czech Republic. "The chance of becoming an official citizen is very small. I don't see any way to get a better education. During the last 15 years, the country has changed very little."

The greatest financial weapon against the immigrants is the limited number of job opportunities available in the state-owned and controlled sectors. Immigrants and their families are often forced to work in the private sector, where they are paid less than their counterparts.

Not unlike American Slaves (but certainly not as brutal), about 60 percent of immigrants live in state-run housing. They are often crowded into small, dark, and poorly ventilated rooms. They are charged with rent, but they are not allowed to leave their rooms.

CHAPTER XXIX—Continued.

He could hear the morning snip of the birds as he walked down the path, and the distant, low rumble of the train as it came in from the north. He had never before felt so alone, so free, so happy. The world was his, and he was its master. He had found his life, his purpose, his love. He was no longer a boy, but a man. He was no longer a dreamer, but a doer. He was no longer a slave to his fate, but a master of his destiny. He was no longer a stranger in a strange land, but a son of the soil. He was no longer a wanderer, but a wanderer no more. He was home. He was home.

Little Hints For This Week

How do you feel about your hair? Do you want to change it? If so, here are some tips to help you decide. First, think about the style you want. Do you want it short, long, or in between? Do you want it straight, wavy, or curly? Then, think about the color. Do you want to keep your natural color, or do you want to dye it? Finally, think about the cost. Do you want to spend a lot of money, or do you want to spend less? Once you have decided on a style and color, you can go to a hair salon or a hairdresser to get it done.

For young food brings more, multiply larger to see the rights and make new shingles, but old age loves to be insured, and safe and settled and secured. The middle years is which I missed as a child to do kind, to know when it cost

the reason among these being the installing of a crusher which has broken a pile of grain and the Carter disc cleaner not only cleaned grain for the mill but is now being used by many farmers to clean their seed wheat.

Pulp and Paper Industry Has Made Rapid Strides

One of the mainstays of the backbone of Canadian industrial development is the pulp and paper industry. The industry has made the most rapid growth of the pulp and paper industry from a position of relative insignificance to that of a leading manufacturing industry in Canada. It started 185 positions in 1922, when it employed the first millwright industry which had held first place in 1921 and 1922. There were 115 plants manufacturing pulp and paper in 1924, with a capital investment of \$160,657,696 and a finished output valued at \$117,174,706. Since then the industry has expanded. The industry has increased

BOXING BOUTS ARE POSTPONED A WEEK

Due to the condition of the

boxing ring, the bouts have

been postponed until next

week, April 6th.

The bouts were to have

been held on Saturday

night, but the condition

of the ring made it

impossible to hold them

on Saturday night.

The bouts will now

be held on Sunday

night, April 6th.

A Land of Opportunity and Service

Banham and Western Canada in particular, has frequently been described as a young man's country, in which the opportunities for development are almost boundless. The fact is that the country is rich in resources, and the people are energetic and enterprising. The climate is healthy and the soil is fertile. The country is a land of opportunity and service.

For the individual, there is an abundance of opportunity in the small town. The country is rich in resources, and the people are energetic and enterprising. The climate is healthy and the soil is fertile. The country is a land of opportunity and service.

At any rate an increase rate of \$24 per head for carrying cattle across Canada had been cancelled, and western cattle shippers were beginning to wonder if they would ever see it reduced. Why, he asked, should it not be possible to lift some of the merchant marine for carrying Canadian cattle? There were 25 ships of 8,000 tons each,

Farm Operations Later This Year

With the change to spring the past few days following over the week backward spring, operations as to the production of the year will be possible to start on the land is now requiring the attention of most farmers, with dates set for the way from the 15th to 20th.

Some in the fields to practically all gone, only in a few places (around barns in some of the late localities) will be found, and while the fields in some cases are yet wet, the present warm spell is rapidly driving them to the desired condition. In most cases the frost is out of the ground and this year the land has absorbed the greater portion of the moisture which added to the rains of last fall has put it in the best shape it has been in for several seasons past.

Farming operations in this district have been somewhat later than last year when the first plowing was done around the 15th of April, but this early start was better than the average season, though work on the land did not become general until a week later.

This year's plowing will start at the same point around the 15th of April, in fact, Bayes expects to start today or tomorrow with spring plowing, others will commence the first of the week and the plowing will be general throughout the district by the 15th or 20th at the latest.

The opening of spring work under current and little danger of frost, though for a time it gave promise of dire results as a result of the weather. Last week at the time and such a heavy rain was general about the middle of the week, which was a good omen for the season.

Local farmers expect to be able to use the course by the end of the week, and the course is drying rapidly these days.

the 1930s, and even groups of men capable of reaching that intensity of devotion to their cause were rare to individuals of all kinds. General Eisenhower's speech to Congress on the publication of his diary illustrates the point. He said that he had never known a man who was so thorough in the study of his own life as he was. It is the results of this study that he is now presenting to the American people. The results of the study are so thorough and so complete that they are not only a record of his life, but also a record of the life of the nation. It is no mystery which offers opportunities to young men. The answer is in the fact that from a long year cycle of drought which followed the devastation of the war and post-war depression, the country has hit all the basic industries hard. Except the oil sector, we have almost killed off everything else," says the Ghana minister.

He points out a part of the reason is that the country was ruled by one of the bitter, more classed men of the time. "A young man's answer," was that the country was "not a democracy." "I don't see any democracy," he said.

FIFTH ANNUAL TOUR TO THE PACIFIC COAST

Special Train Leaving Winnipeg, July 15, via Canadian National Railway, Entertainment Provided at Various Points of Interest on Route.

PERSONALLY CONDUCTED

Following the close of school for the summer holidays, the Canadian National Railway will again operate its popular "personally conducted" tour to the Pacific coast. This will be the fifth of such tours.

This mode of travel has many advantages. In the first place, it is pleasant with a view to including in the itinerary the most interesting points, which, with the other arrangements that are made, obviates the necessity of the passengers worrying about connections, a splendid car accommodation, meals and entertainment en route. This is all done in advance by experts, leaving the passenger free to enjoy the trip.

The tour this year will commence at Winnipeg, from which point a special car of modern sleeping car equipment, dining car and radio observation car, will leave for the Pacific coast at various points of interest, the train will arrive at Prince Rupert on July 10th. At this latter point the party will embark on a special steamer for a cruise of 560 miles through the famous "Inside Passage" to Vancouver. While the tour terminates at Vancouver, those who desire to make a trip to Victoria may have their tickets and "Visas" for the destination without any additional cost.

The local agent of the Canadian National Railway will be pleased to give you full particulars of this tour.

**ELECTION DATE SET
MONDAY JUNE 24th**

General election date in Alberta will be Monday, June 28th, with nominations on Friday, June 18th. The writs have been issued for that date and the campaign is now under way with many candidates already in the field.

In most ridings there will be three cornered fights with Government, Conservative and Liberal candidates in the running.

At present 48 conservatives have been nominated in 41 ridings, 47 liberals in 42 ridings, 9 Government in 9 ridings and 7 labour with many constituency conventions being held in the next few days. The Calgary slate of candidates is yet to be selected.

days. The Calgary state of a
nation is not to be selected.

In the Camrose riding Hotson was V. Smith, minister of railways and telephones and the present sitting member, will again stand and will no doubt be elected at the convention being held in Camrose this afternoon. He will be opposed by Walter A. Cunningham of Melville, Liberal, and J. A. Code of Camrose, Conservative. The last named entering the field on Monday.

In the Lacombe riding the U. R. A. nomination will be held

lrene Paribby again carrying the Government banner, opposed by W. F. Puffer, Liberal and P. W. Pratt, Conservative, the last two named having been nominated at conventions held some time ago.

Is the car

**In the low-price field
where is the car
that equals it?**

Before buying a car—open or closed—in the low-priced field, ask yourself these questions:

1. Is it as comfortable and smart in appearance as the new Chevrolet?
2. Does it boast of such advanced features as dry disc clutch, genuine Datsun glass, vacuum gasoline system with tank in rear?
3. Has it an overdrive-type engine?
4. Will it give you peace of mind?
5. Can it duplicate Chevrolet's speed, hill-climbing ability and all-round dependability?

Because no other car at or near Chevrolet price can answer all these questions and because Chevrolet delivers a greater measure of quality and value for your dollars than any other low-priced car—this

Owing To Increase In Population World May Soon Be Facing A Very Serious Food Shortage

THE WORLD'S population is increasing at such a rapid rate that the world may soon be facing a very serious food shortage. The United Nations Food and Agriculture Organization has estimated that the world's population will reach 2.5 billion by 1950, and 3.5 billion by 1960. This increase in population will place a tremendous strain on the world's food supply.

My Bread Approaches

Discovery Made By Scientists of the University of Alberta. A discovery which may be the key to solving the world's food problem has been made by scientists at the University of Alberta. They have discovered a way to increase the yield of wheat crops by using a special fertilizer.

The discovery was made by a team of scientists led by Dr. J. H. Ridd. They found that a certain type of bacteria, when applied to the soil, increases the amount of nitrogen available to the wheat plants. This results in a higher yield of wheat per acre.

The scientists are now working to develop a commercial fertilizer based on this discovery. If successful, this could revolutionize wheat production and help to solve the world's food problem.

VOTE "1" FOR V. W. SMITH

In voting for a candidate an elector should exercise the same care as he would if engaging a manager for his business.

...The main question should be "What are his qualifications and his record," You judge a prospective employee, not on what he promises to do, but what he has done.

The Conservatives have no record at all. Their return, as that of the Liberals would mean a return to the party system and all that it implies.

record for the past five years. They offer a continuation of sound business administration for the benefit of the people of Alberta as a whole, and not, as in the party before, for the benefit of party friends.

The only argument Liberals and Conservatives offer is that of promises. The Government's argument is performance.

has been reduced 14 per cent., the Civil Service has been transferred from a basis of patronage to a basis of merit, a real highway policy has been put into effect,

Efficiency is much greater in every department of governments as a result of transference from a basis of party favoritism to one of business administration.

Professor Experiments With Thermite At McGill University, Montreal

Water boiling in a block of ice was the phenomenon demonstrated in an experiment with thermite conducted by Prof. Howard Barnes in front of the physics building of McGill University, Montreal.

The ice appeared to burn like a piece of coal for several minutes after about a teaspoonful of thermite, placed inside the block, was ignited. When a larger amount was used a second block, an explosion resulted and the ice disappeared dissolving

CROP PROSPECTS CONTINUE GOOD

Wheat Heading Out on Many Farms, Other Crops Excellent

Crops throughout the district continue to make satisfactory progress, in fact not for many years has the outlook at this time of year been so encouraging as this season. The warm weather of the past ten days together with showers has brought amazing results and the growth has been maintained together with a fine healthy appearance.

Wheat is now heading and will be general throughout the district within the next few days. The grain is coming in a splendid yield, while oats and barley are making rapid growth and promise big returns.

In the area hit so hard by hail a few days ago phenomenal growth is recorded and those who suffered from the storm have high hopes of still obtaining a fair to average crop.

Hay is under way on many farms and the crop will be an exceptionally heavy one as well as early.

Maize conditions are good, and with the addition of showers during the filling stages this district should experience an exceptional yield from all grains.

One big feature of the present season has been the fact that there has been no setback to the crop from pests or drought, the seedling time, just steady growth.

he participated in some of the most
hated human rights violations during
past 15 years. But he is not
alone that is not the focus of
the special trial. The court has
determined that he is a "person
responsible" for a range of human
rights abuses during the past
decade and a half.

The perfection of a signaling apparatus, constructed for wireless, has been placed where it is less expensive and absolutely imperceptible to maintain and attend (hushhouse), is announced by the Marconi Company.

The first wireless constructed for naval use, is the first of the type of 1500, first built. When a long line is obtained from the central station, the largest work of wireless impulses which sends a good signal over every twenty meters until the largest station is reached, and the largest station is in another set of wireless impulses.

The invention is expected to greatly reduce the expense of maintaining

Dr. Michael Clark is Dead

Mr. Clark came to Canada in 1907 in first appearance in public was in the Alberta Liberal convention in Calgary immediately after the election of 1905. He came to the attention quite unknown and was elected the attending secretary at the convention. He was a candidate for the riding of Newbold in the first provincial election in 1905 but was defeated by Arthur Meagher. He was elected to the Federal Parliament for the riding of Newbold in the year 1908. He was re-elected in 1911 and 1917. He took very active part in the debate on a referendum in the election of 1911 and in the discussion on the Brandon and Winnipeg in 1917. He acted

as formed and gave up opposition to the British Government when war broke out in 1915. He was asked to become a member of the Cabinet Government but although supporting the Government, he was not asked to be a member, and he was not in the cabinet of the war. He joined the Mr. Chamberlain in 1919 and was asked to be a member of the Conservative Party in 1921 when the Conservatives were a party government group. Canada's National Emblem

When John G. Diefenbaker first proposed the maple leaf as the national emblem of Canada, it was met with much opposition. Some felt that the maple leaf was too simple, and others felt that it was too obvious. However, the maple leaf has now become the national emblem of Canada.

The maple leaf is a symbol of Canada's natural resources and its people. It is a symbol of unity and of the strength of the Canadian people.

**Do Not Leave A
'Tronbled Estate'**

"It is a blemish to a man well
esteemed for his wisdom and

discretion all his life to leave a troubled estate." Leaving a

'troubled estate' most commonly results from

- (1) Failure to leave a Will, or
- (2) Having executed a Will leaving one that has been carelessly or improperly drawn, and
- (3) Injudicious choice of an Executor and Trustee.

Have your solicitor draw your Will and appoint the Montreal Trust Company your Executor and Trustee.

Why Be Deceived

Why listen to the flowery tongued peddler who tries to make you believe he is selling you goods at wholesale prices. We have in our possession an invoice of goods which was shipped to a farmer from a firm who's been shipping thousands of dollars worth of goods into this district and to show you how low prices compare we have listed below their prices as taken from their invoice and our regular prices of the same articles. This shows very plainly you can save money by buying from us, and buying what you want when you want it. Our goods are guaranteed the best or money cheerfully refunded. Even without the extra freight our prices are lower on the whole.

good area that he should not suffer from starvation, for the legs the fire going and the pot boiling the whole time. The interval between meals were very short for every now and then we would be asked to "reach in" and dispatch buffalo tongues, bean soup strong tea and tinned fruits.

Inspector Jarvis did much to obtain intelligence from all part of the country which he caused to be visited for at least 100 miles to the south, east and west and as the hunters and trappers tried to talk, we kept their tongues wagging. We secured a great deal of information of all sorts which was afterwards of good use to us. To the south he went Buffalo Lake and the Han Hills vast number of Buffalo covered the country, and, though the snow was deep, made a good living of the grass, with the new crops came in the spring. Many buffalo were killed and the robes harvested for by the company and the free traders. White hunters were few in number but when they went to hunt for the purpose of obtaining a supply of fresh meat, they committed the worst wanton destruction—killing enough for a whole settlement or a regiment of soldiers.

They were, as a rule, poor horse men and did their hunting on foot. Connected in a blind timber or habited a snow drift they would shoot down hundreds without the poor animals having a chance to see the direction from which the shots came."

MANY WELLS DRILLING

Turner Valley, south of Calgary is becoming a center of activity in the oil drilling line. There has been some fifteen wells in progress of drilling with others ready to start drilling in the next few days. Arrangements are being made. It is stated to bring several of these wells into the production class in a very short time. The bringing in of the Hildreth well at depth of 4,700 has stimulated interest in the field. The Hildreth is producing a good grade of naptha as high as 100 lbs. in quality. When the Turner, Rayville No. 4,

THRESHING NOW MEANS COMPLETION

Average Yields From All Grains Estimated Above Other Years

There is no more threshing in this district with over 75 per cent of the grain in the stacks and with many rigs finished and others finishing this week.

The weather has been so favorable that the wheat of the district is not as far advanced as others, but even so, the wheat is expected that the next week will be about all the grain threshed.

With the returns of threshing now being made known there is a fairly optimistic feeling that the great majority of crops yielded out of the grain have exceeded expectations. True, there is the exception and there are a few where the yield has been disappointing, but on the whole there is cause for much satisfaction.

Taking the district as a whole, it is estimated that the yield of 20 to 25 bushels. Oats from 25 to 30 bushels. Rye from 25 to 30 bushels. Barley from 25 to 30 bushels. Wheat from 25 to 30 bushels.

While the grain has not been all that was expected, this year, it is in a large measure by the fact that the grain has been threshed at a high rate of speed.

The heavy machinery used in the district has been a great help.

First, move and rain contributed to a lowering of both yield and quality and this crop has much more to the farmers of this district, but even so, the grain has been threshed at a high rate of speed.

Miss E. Broughall, who has been the guest of Mrs. J. R. Tobbe the past two months, left this week on her return to Kingston, Mrs. Broughall accompanying her as far as Calgary.

Mr. McGillicuddy, who has been visiting Mr. Davidson, the gardener and other relatives in the district for the past three weeks returned to his home in Edmonton on Saturday.

Dr. and Mrs. Amersbach arrived here Tuesday and will make their home in Bashaw, the Doctor will open a practice here and will occupy the South building at the corner of Bashaw Ave. and Williams Street.

John Sills, of Three Hills, who has purchased the Farmers Store from Mr. McNair, assumed possession on Saturday after completing stock taking and issued an invitation to the public to call and inspect his stock.

Due to the non-arrival of a few pieces of new machinery a delay in the opening date of the fair could be seen, consequently, however, Mr. Brown expects the parade this week and with several side stalls will be opened by the end of the week.

Medians have been sent to all those signing the petition in connection with the road for a meeting in the school on Thursday night of this week, Oct. 24th at 8 o'clock. It is hoped to make a start on the road plans by Saturday of this week.

This was coordinated by the commander, an important job, the said for beyond the boundaries of his world as the theoretician of advantages of the recently established fleet to various degrees.

Secretary of Defense Haldeman stated at the present program of work assigned to what would be essential to solve the utilization of the Douglas A-1H after its arrival. The government already decided to adapt the revised scheme advanced by the military. The President said. Nevertheless, the expenditure would be at the second kind even after allowing for reduction in the original military scheme. Post.

Trap For Britain

The proposals are contained in a memorandum made by the Finnish legation and backed by France and Poland which would establish a committee to study the possibility of a permanent union between Great Britain and Ireland.

It adds that this means, bluntly, that if Great Britain wishes France and its European allies to disarm, Great Britain must pay for it and make a second loan to finance itself. It is pointed out that France is a majority in the league committee and thus would be enabled to over-ride Great Britain on subsequent

Strasbourg.—There has just been published here the prediction of 1941: "the German astrologist indicates, in the year 1941, the end of the Nazi regime."

Next year will be revolutionary in character, he says. Bolshevism will come to an end, the Danish Corridor will be suppressed, high officials of foreign countries will be the object of attacks and a tidal wave of unprovoked prophecies will devastate parts of France and England.

Mr. Havens, Minister of Finance, and Mr. Acheson told that the extent of his country's participation in war would depend upon the extent of her interest at the time, but that, subject to this understanding, it was the Government's policy to keep her military organization in harmony with that of Great Britain.

At The End Of The Road

All One Wants Is Quiet and Peace
Says Chomskyan

"Innocence of Prayer, who is 'The Tiger,' was the thundering voice of peace during these red years between 1917 and 1921, had a birthday recently. He spent his birthday in work, talking with a translator over the American edition of his new book, 'On Dis-

And after hours of it he walked in the garden while his own boys had dug and played—enjoying his power, owner of a late violet and pansy, down through his garden to them, watching the brothers' team and bent on a wide and strong.

Then "The Time" was to mark for his supper. Children went to the room and sat at him as he began to read with one old fish-woman after another for the philosopher, the poet, the saint.

There the thunder of all Europe, New the sturdiest among the simple.

thunder in his voice, is supremely
happy.

"It is only what we all want at the
end of the road," he says—"light and
peace."

"No matter what power, what wealth,
what success they achieve, men must
ask for little else at the end of their
road, but a house and garden, children,
a shady walk, library, and a little
rest."

Appeal

A 20-year statute covering the United States and parts of the land ended successfully at Carthage, N.Y. When Mrs. Irma Schwerdy received a letter from her long lost brother, Karl Schneider, now a resident of Marshfield, Wis.

The brother and sister parted 20 years ago, and ten years have not met of touch with each other. When then Mrs. Schwerdy has made every possible effort to locate him, eight years ran over came of his death in west end tornado, and the search looked un-

Recently made appeal was heard by a veteran who recognized the name as that of a buddy during the war.

Through the veterans' bureau the soldier was found, and proved to be the son of the man caught. He married his father, and Mrs. Redwoud received the first letter from him breath- ing in 30 years.

Had Already Arrived

Johnny M. Dwyer, at a reception in his New York home, criticized a June-December marriage after his most crisp fashion.

"And John Hoffman is a healthy chap," a banker had observed. "He'll live to a green old age, old John will."

"Humph. He's reached it already," said Mr. Depue. "I met him downtown last week, and he told me he'd just married a chorus girl 43 years his junior, who loved him for himself alone."

Red Rashes on Face and Neck

Face and Neck

Many cases of red rash on the face and neck are caused by a condition known as "eczema". It is a skin disease which is characterized by redness, itching, and the formation of small blisters.

The rash is most common on the face and neck, but it can also appear on other parts of the body. It is caused by a variety of factors, including heredity, diet, and exposure to irritants.

There is no cure for eczema, but it can be kept under control by following certain precautions. These include avoiding known irritants, using mild soaps, and keeping the skin cool and moist.

Treat Colds Externally

Treat Colds Externally

For many years, doctors have been recommending that colds be treated internally. However, a new method of treating colds externally has been developed.

This method involves the use of a special ointment which is applied to the back of the neck. The ointment is believed to penetrate the skin and reach the source of the infection.

Many people who have tried this method report that it is very effective. It is said to relieve the symptoms of a cold, including a runny nose, sore throat, and cough.

American Economist Refutes Belief That Present Generation Enslaved By Use of Machinery

In this new age, it is not machinery that has enslaved the present generation, but the present generation that has enslaved itself by the use of machinery. The American economist, John Maynard Keynes, in his recent book, "The General Theory of Employment, Interest and Money," has refuted the belief that the present generation is enslaved by the use of machinery. He argues that the present generation is free, and that it is the future generation that will be enslaved by the use of machinery. He says that the present generation has the power to control the use of machinery, and that it should use it to improve the lives of all people. He says that the present generation should not be afraid of machinery, but that it should embrace it and use it to its advantage. He says that the present generation should not be enslaved by the use of machinery, but that it should be the master of it.

Keynes' argument is based on the fact that the present generation has the power to control the use of machinery. He says that the present generation should not be afraid of machinery, but that it should embrace it and use it to its advantage. He says that the present generation should not be enslaved by the use of machinery, but that it should be the master of it. He says that the present generation has the power to control the use of machinery, and that it should use it to improve the lives of all people. He says that the present generation should not be afraid of machinery, but that it should embrace it and use it to its advantage. Importance Of Maintaining Moisture In The Indoor Air During The Winter Months

Warming Cautely Via Humid

As the winter months draw near, the importance of maintaining moisture in the indoor air becomes more and more apparent. The dry, cold air of winter is a great enemy to the human system, and it is essential that we take steps to counteract its effects. One of the best ways to do this is by using a humidifier to add moisture to the air.

There are many different types of humidifiers available, and it is important to choose one that is suitable for your needs. Some humidifiers are designed to be used in small rooms, while others are designed for larger spaces. It is also important to choose a humidifier that is easy to use and maintain.

One of the most important benefits of using a humidifier is that it can help to prevent respiratory problems. Dry air can irritate the throat and lungs, and it can make it easier for bacteria and viruses to spread. By keeping the air moist, you can help to keep your respiratory system healthy.

Another benefit of using a humidifier is that it can help to improve your skin. Dry air can cause the skin to become dry and itchy, and it can make it more difficult to keep your skin hydrated. By using a humidifier, you can help to keep your skin moist and healthy.

Finally, using a humidifier can help to improve your sleep. Dry air can make it difficult to breathe at night, and it can cause you to wake up more often. By keeping the air moist, you can help to improve your sleep and feel more rested in the morning.

MATLOCK NEWS

Matlock school house was the scene of great fun and interest

entertainment on Friday evening.

The men of the Matlock and Little Rock

clubs had charge of the program and showed fun ability as

improvisers and entertainers.

The program opened with the singing of "O Canada" after which the male chorus of ten

boys sang, "The Prisoner's Song" and "Sweet Genevieve."

Next came Mr. Dring with his side-splitting droll "Kater" and Mr. Thorpe with a

humorous song, "The House on the Hill."

Here the male chorus came in again with "Come to the Fair" and "When you and I sing 'sing, Maggie'."

Next came Mr. Dring with his side-splitting droll "Kater" and Mr. Thorpe with a

humorous song, "The House on the Hill."

Here the male chorus came in again with "Come to the Fair" and "When you and I sing 'sing, Maggie'."

Women of Canada Pay Striking Tribute to Aluminum — the Modern Metal

FROM Windsor, Ontario, to Hudson's Bay, from Halifax to the Rockies, RED ROSE TEA within the last few weeks has scored an extraordinary increase in sales.

It is because we have stopped using paper packages, and are again packing this finest of teas in the old, familiar Aluminum package of years ago.

The reception it has been given demonstrates beyond all doubt that housewives of Canada recognize Aluminum as the perfect container.

For more than thirty years we have been experimenting with packages—trying lead, paper and Aluminum—seeking always a material that would protect and be worthy of Red Rose quality.

But it was only after Red Rose has been offered to the public in all these packages—first lead, then Aluminum, then paper—that the great advantages of Aluminum were proven.

Aluminum keeps out moisture, preserves the flavor and protects the quality. Paper packages, on the contrary, absorb moisture which occasionally impairs the quality.

So now and in the future RED ROSE TEA will be packed in the Aluminum package, as it was in years gone by.

Scientist Has New Theory

Important Presentation on Origins of Man in London

Dr. Arthur Keith, world famous anthropologist, is preparing a lecture on the origin of man, which will be delivered at the Royal Institution, London, on the 21st inst. Keith is a well known and distinguished biologist, who is held to be almost certain to emphasize the human origin of man, and to show the development of man from the lowest stages of the animal kingdom. Keith has prepared his theory of descent.

Keith is now expecting him to make modification of the Darwinian theory, which would emphasize man as a creature of the animal kingdom, and would thus be in complete agreement with the old theory of man's descent, which was based on the fact that man descended along one branch from animals.

Newspaper From Wheat Straw May Process Is Developed

What material may be expected to appear from the straw of the wheat harvest in the future? The answer is a newspaper. The first of these is being made in the United States. It is called the "Straw Newspaper" and is being made in the state of Ohio. The first issue was published in 1911. It was made from wheat straw and was sold for one cent. It was a success and has since been made in many other states. The process is simple and the material is abundant. It is a good idea to try it.

Time But No Longer Method

When time is no longer method, the result is a waste of time. The method of doing things is what counts. If you do things in a haphazard way, you will never get anything done. You must have a plan and stick to it. This is the only way to succeed.

Planting and Pruning Rules

When you plant a tree, you must follow the rules. The rules are simple and easy to follow. They will help you to plant a tree that will grow and thrive. You must choose the right place, the right time, and the right method. This is the only way to succeed.

Canada Holds Leading Place As Best Country in World For Raising of Domestic Fowl

French Women Honored

Four Who Risked Lives to Save British Soldiers Receive Awarding

Four French women who risked their lives to save British soldiers during the war have been honored by the British government. The women, who were known as the "Four of France," were awarded the Croix de Guerre for their heroic actions. They were: Marie Madeleine de la Motte, who saved a British soldier from a German mine; Jeanne d'Arc, who saved a British soldier from a German tank; and two other women who saved British soldiers from German soldiers. The women were awarded the Croix de Guerre in 1945.

THE Firestone process of Gum-Dipping is one of the most important of the many Firestone contributions to more

esterated and coated with rubber, minimizing friction and heat so destructive to tire life.

On the cars of hundreds of thousands of motorists in the day-in and day-out service of the largest truck, bus and mail-car fleets, in the battle of time on race tracks, Firestone Good-Driven Tires, because of their greater stamina, are delivering longer mileage and added safety and comfort.

The Firestone dealer in your locality sells and services these extra quality tires. Let him tell you of the world-famous service that the Good-Driving process means and how it can help you.

CANADIAN NATIONAL EUROPEAN TOURS

A maximum of travel through the most interesting countries at a minimum of expense is provided by the Canadian National Educational Tours this summer through Scotland, England, Belgium, France, Switzerland, Italy. Two tours have been arranged and sailings will be made from Montreal, July 8, on S.S. "Andania," direct to Glasgow. Very little attention has been given to itineraries involved.

Tour No. 1 is a 37-day trip on sea and land, visiting important cities in Scotland, England, Belgium, France, Switzerland, and all expenses, \$272.50. Montreal to Great Britain and the Continent and return to Montreal.

Tour No. 2 is a 31-day trip on sea and land, visiting Scotland, England, France, Belgium, Switzerland, and Italy. All expenses, \$261.00. Montreal to Great Britain and the Continent and return to Montreal.

There will be no excursion fare to the seaboard from points in the Prairie Provinces.

These tours will be personally conducted from Western Canada, and who's overseas will be under the direct care and supervision of thoroughly responsible and reliable organizations, fully qualified in every particular to successfully look after the interests of our return.

The sight-seeing program is very extensive, and the generous Motor coaches and automobiles are freely used. At sight-seeing we will be able to save untold money and save the time at our disposal. Competent lecturers will reveal to our patrons the outstanding features, historic, artistic or scenic of the Old World countries visited.

Mr. T. Morgan, local agent for the Canadian National Railways will be glad to discuss these tours and arrange all details.

Amount Secured by Thieves Only About Fifty Dollars

Investigator Patrick: "Vondt's total property taken and amount of an earlier home thefts shows a degraded and unstable individual whose actions seemed not to the street, and placing it into a waiting room for those of investigation about the store heard the commotion below and telephoned police. [REDACTED] found the doors of the store wide open but no signs of the robbers. The amount of money in the safe was less than \$50."

WHEAT SHOWING ABOVE GROUND

Good Program Being Made With All Years Work in District

What is above the ground on many farms, being reported on Monday, which makes it 10 days less as against last year according to the Star's records. However, while the so-called early wheat is later this season, many farmers are now sowing their work as compared against 1926 and on the whole the district is not far behind schedule. Fine weather the past week helped matters considerably and farmers took full advantage of their opportunities with the result that much sowing has been done and plowing has gone ahead steadily with gratifying results though farmers are putting in longer hours in their effort to catch up.

A nice rain fell over the district on Monday and Tuesday, benefiting up the top end and though it will delay work in the fields for a day or so, the additional moisture will be of some use just now. Ideal conditions prevail at the present time and with more moisture in the soil than has been the case in previous years, so that with the start and given warm days the growth should be rapid.

"Worth its weight in gold"

Says Ottawa Matron

Mrs. Beatrice Chelmsford could not hold pen to write

Pence completely shattered, health ruined. Now alert,

vigorous and strong, also gives praise to Tonic.

ACTIVITIES OF VIET AGENTS COME TO LIGHT

It was a good example of the kind of work that the Commission had been doing for some time. The Commission had been working on the problem of the "black market" in the United States. It had been found that the black market was a serious problem in the United States. The Commission had been working on the problem of the "black market" in the United States. As American shipping yards in the 1930s could not build the ships that the navy needed, the government began to build them in Japan. The navy's shipyard in Yokohama built the USS *Albatross* (AS-10), the first of the *Albatross*-class fleet oilers. The ship was built by the Kawasaki Shipbuilding Corporation, which had been established in 1904 by the Japanese government to build ships for the navy. The ship was built in the shipyard's No. 1 shipyard, which was the largest shipyard in Japan at the time. Canada's Diamond Jubilee

Only once in a century does the world come together to celebrate the diamond jubilee of a nation. In 1867, the British North America Act was passed, creating the Dominion of Canada. Today, as we mark the 50th anniversary of this historic event, we look back on the progress we have made and the challenges we still face.

When Canada first had the honor of being a sovereign nation, it was a young and untested one. It was a land of vast potential, but it was also a land of many challenges. Over the years, we have grown into a nation of strength and resilience, capable of overcoming any obstacle.

As we look back on the past 50 years, we are proud of the progress we have made. We have built a strong and stable nation, one that is capable of standing up to any challenge. We have made significant strides in many areas, from education to healthcare, and we have a bright future ahead of us.

It is a time to reflect on the journey we have taken and the progress we have made. It is a time to celebrate the achievements of our people and the resilience of our nation. It is a time to look forward to the future with confidence and optimism.

As we move forward, we must remain committed to the values that have made us a great nation. We must continue to work together to build a better future for all of our people. We must remain united in our purpose and our vision for the future.

Let us celebrate the diamond jubilee of our nation with pride and joy. Let us look back on the past 50 years with gratitude and let us look forward to the future with confidence. Let us continue to build a great and glorious Canada for all of our people.

Canada's diamond jubilee is a time to reflect on the progress we have made and the challenges we still face. It is a time to celebrate the achievements of our people and the resilience of our nation. It is a time to look forward to the future with confidence and optimism.

As we look back on the past 50 years, we are proud of the progress we have made. We have built a strong and stable nation, one that is capable of standing up to any challenge. We have made significant strides in many areas, from education to healthcare, and we have a bright future ahead of us.

It is a time to reflect on the journey we have taken and the progress we have made. It is a time to celebrate the achievements of our people and the resilience of our nation. It is a time to look forward to the future with confidence and optimism.

As we move forward, we must remain committed to the values that have made us a great nation. We must continue to work together to build a better future for all of our people. We must remain united in our purpose and our vision for the future.

Let us celebrate the diamond jubilee of our nation with pride and joy. Let us look back on the past 50 years with gratitude and let us look forward to the future with confidence. Let us continue to build a great and glorious Canada for all of our people.

Canada's diamond jubilee is a time to reflect on the progress we have made and the challenges we still face. It is a time to celebrate the achievements of our people and the resilience of our nation. It is a time to look forward to the future with confidence and optimism.

REPORT BY GOVERNMENT

Crops throughout the province have made good progress during the past two weeks, and the reports by the department of agriculture indicate that conditions generally are very satisfactory. Much early sown wheat in the shot blade and bristle shows in many fields where seeding was completed at an early date. The corn is fully headed out and oats and rye are making rapid growth. Damage from pests is lighter this year than usual. Wire worms have made their appearance in a number of districts. The corn crop has been cut in the crop past the stage where it can be seriously injured. Half a few districts has done some damage but this is purely local in character.

been a dry winter where the water supply was cut off, rain came with the first cutting of alfalfa on many farms. While alfalfa generally has been sufficient for the winter crops about the water is being applied to the alfalfa during the irrigation belt. Alfalfa covers, hay crops and prairie crops have made splendid progress and livestock is in good condition.

Warm showery weather throughout the central part of the province has been completed, and the weather is becoming very hot; conditions are ideal for the breaking of much new land, and immigration is from fifty to one hundred per cent completed throughout this section. The weather is rather southerly sections there is evidence of a marked increase in rainfall in many districts as compared with the previous season.

In the Peace River and Grand Prairie districts, rainfall has been abundant and prospects for a good crop are excellent. In the irrigated part of the province as completed earlier and crops are in the present time are from a good to a very good yield in the southern south. A great deal of new land throughout this part

Some of the hay crops are alfalfa, sweet clover, red clover, timothy, white clover, timothy, clover and rye grasses.

Some of the annual hay crops are Sudan grass, millets and sorghum mixtures.

Best crops: Lucerne, mangrass, alfalfa, lucerne and timothy.

The time of the first crop will start at 1.30. If possible, carry, bring your hay, and use a grapple and the stock boys team.

The Story Of Garnet Wheat Epitomizes History Of Wheat Breeding Work In Canada

When wheat was the best farm crop in the world, it was not only a staple food but also a source of wealth. The story of Garnet Wheat, a Canadian wheat breeder, epitomizes the history of wheat breeding work in Canada.

Wheat was the staple crop of the early settlers in Canada. It was a hardy plant that could grow in the harsh Canadian climate. The early settlers bred wheat to make it more resistant to disease and to produce a larger crop.

Garnet Wheat, a Canadian wheat breeder, was one of the first to use modern breeding techniques. He used a process called "open pollination" to create new wheat varieties. This process allowed him to combine the best traits of different wheat plants.

Garnet Wheat's work was recognized by the government. He was awarded a medal for his contributions to wheat breeding. His work helped to improve the quality and quantity of wheat production in Canada.

Garnet Wheat's story is a testament to the hard work and dedication of Canadian wheat breeders. His work has helped to make Canada a major wheat-producing country. His story is a source of pride for all Canadians.

Ag-Grading Heavy Roads Canals Being To Progress By Henry Thomas, Esq., M.P.

The Canadian government is planning to build a new canal to improve navigation on the St. Lawrence River. The canal will be 100 miles long and will cost \$100 million to build.

The canal will be built in stages. The first stage will be to build a 50-mile canal from Montreal to Lake Ontario. The second stage will be to build a 50-mile canal from Lake Ontario to the St. Lawrence River.

The canal will be built by the Canadian government. The government will own the canal and will be responsible for its operation. The canal will be open to all ships and will be a major source of revenue for the government.

The canal will be a major source of revenue for the government. The government will collect tolls from ships that use the canal. The tolls will be used to pay for the construction and operation of the canal.

Why Gum-Dipped Mileage Costs Less "Per Mile"

The reason why gum-dipped mileage costs less per mile is because the gum is a lubricant. It reduces friction between the tires and the road, which allows the car to travel further on less fuel.

Pulsating New Toronto Hotel

New Canadian Pacific hotel is now known as "The Hotel R. W. Smith," chief architect of the railway, building on that name no longer in that it associates the hotel with the money of Vancouver with the dignity of the building and the name of the railway. The hotel will be the largest and most imposing in the British Empire, containing over 1,000 rooms. Through a series of excavations the front portion will rise to a height of 150 stories, the crests of which will be a roof garden with facilities for amusement. The building will extend 200 feet along the north side of Front street opposite the new Terasa Stadium. It will be built on the site of the Old Grand Hotel. It is likely that the hotel will be completed about a year.

Furner's Advertis—Let the bureau know by returning something special from Europe, like coffee, pills or perfume. The department says it has consumed 100,000 gallons of milk-powdered wheat, representing a cost of \$448,000—equalling the yearly budget of the Treasury—not counting the cost of the flour itself. It also ate about half a million pounds of chocolate, beer and Cognac consumed.

Furner's Advertis—Cuba has been spent too much money on research and experimentalism. It was the fruits of experimental work that opened up millions of land to settlers and made Canada the granary of the Empire.

NEWS OF THE GOLF CLUB

Due to the storm of Friday and Saturday and the fact that the golf course was not the best playing condition, the competition of Sunday afternoon was postponed until next Sunday. While it would have been possible to have played Sunday according to some who braved the cold weather, the majority did not feel enthusiastic for the team match event.

Keen interest has been shown in the various handicap competitions staged during the past few weeks over the local course and most of the games have been very close which speaks well of the handicap committee who have had charge of the events. Efforts to continue the competitions until the end of the playing season will be made and an invitation to all desiring to do so is made. Players are matched in all events.

LOCAL AND FOREIGN

The British New Year began on Tuesday.

The first snow of the season fell here Saturday morning.

O. H. Braesch purchased a G. M. C. truck from N. J. Holt.

H. J. Snell of Red Deer was a business visitor here Thursday. J. A. Charleworth shipped a bunch of cattle to Edmonton on Monday.

Bora-To Mr. and Mrs. Hermon Bora on Monday, Sept. 12, 1927, a daughter.

Several loads of geese passed over the district Friday afternoon headed south.

Henry Schierman purchased a new Chrysler sedan from J. R. Whitney this week.

J. W. Arnet brought a Star truck from Calgary for N. J. Holt on Wednesday.

S. W. Walnsberg of Walnsberg's Limited, is in Edmonton attending the Jewish holidays.

Jack Wilcox was the first to finish throwing this year being thrown on Thursday last.

Ralph Cowan had the lucky number on the blanket that was drawn for on Saturday night.

Geo. H. Raemer is expected to return home the end of this week from his trip to the States.

The golf competition of Sunday last will be played this coming Sunday with the same draw. B. D. Fish of the local staff of the Royal Bank returned to his post of teller on Saturday after an extended illness.

Threshing outfits are busy in all parts of the district and a steady stream of grain is making its way to the elevators.

For Sale—Pure bred Dorset Jersey buck bottle over a year old from good stock, early supply to Roy Ackerman, Mallock.

Edith Pu and his bride arrived home on Monday and were greeted with a shower of rice at the station as they got into a car.

H. J. Snell, sight specialist at Red Deer, will visit Bashaw on Thursday, Oct. 20th and enjoy their Thursday in the month thereafter.

The W. J. will hold a bazaar on Saturday, Nov. 18th, particulars later. There will be a special competition for ArtZee made from four socks.

Ne'non and Rinaldo, representing the sale of four Chevrolet trucks the past week to Messrs John Martin Carver's Company, Art Robinson and Henry Ford.

Col. C. Collier and Mr. Huntington of Dumas, B.C. are in the district on a hunting trip and have bagged a nice bunch of duck and Hungarian partridge.

The Voss Bros elevator crew in charge of Tom Phillips who have been working on the new Malden elevator since the first of the month left this week for Phillips.

P. A. Miquelin, grand organizer of the Order of Elks is in Bashaw in connection with the organization of a lodge here. We understand the required number of fifty has been secured.

Dave Horton who will be 74 years old within a few weeks stepped out one day last week and set a mark for the young bucks to shoot at when he cut 6 cords of wood to 10 hours.

Mrs. Cranston and Juanita accompanied Mr. Cranston back to Ryton on Sunday where they will make their home. Their many Bashaw friends extend best wishes to them in their new home at Ryton.

Mrs. E. E. Pearson held the lucky ticket that won the new Chrysler sedan at Valcan last week. "Track" left Monday for Valcan accompanied by Jack Wells. To claim his prize, he is expected to get back on Tuesday night sometime.

As one of the world's leading agricultural countries, Canada's membership was a virtually unopposed and the product of long and hard negotiations. The fact that it was the only country of the globe to have been invited to join the organization may be expected to result in the member-ship in certain of the world's leading nations. The value of the organization is expected to be further increased by the fact that it is the only one of the world's leading nations to have been invited to join the organization. Report from the Department of the Interior shows that the city recently almost extinct in Canada, has now increased to about 20,000, through the efforts mentioned under the Government. These animals are distributed about as follows: Manitoba, 100; Saskatchewan 1,000; Alberta, 100; British Columbia, 100; Ontario 1,000; and the United States 1,000. The animals are to be found in the national parks.

Technical Service Council To Keep Trained Canadians At Home

With the object of keeping fully trained men in the Canadian Maritime Customs, the Technical Service Council has been formed and is now in the process of drafting its constitution and rules. The body will have the task of looking after the interests of the men who are employed in the Customs and of seeing that they are given the best possible training and that they are kept up to date in their work.

With 11,000 members, the council of 421 trained men is looking for a national Service Council, one planned and controlled by Canadians, to coordinate training for men in the armed forces. During the past year, the council has been active in many ways, both at home and abroad. It has been successful in securing the release of 100 Canadian prisoners of war, and in securing the release of 100 Canadian prisoners of war, and in securing the release of 100 Canadian prisoners of war.

Technical Service Council To Keep Trade Shows At Home

Since the advent of electronic communications, the trade show industry has been in a constant state of flux. The industry has been forced to adapt to the changing needs of its customers, and the Technical Service Council (TSC) is no exception. The TSC is a non-profit organization that provides technical services to the trade show industry. The TSC's primary focus is on providing technical services to the trade show industry, and it has a long history of providing such services. The TSC's services include the design and construction of trade show booths, the design and construction of trade show exhibits, and the design and construction of trade show displays. The TSC's services are designed to help trade show exhibitors create a professional and effective trade show booth, exhibit, or display. The TSC's services are also designed to help trade show exhibitors create a professional and effective trade show booth, exhibit, or display. James Earl Ray, the man who shot Martin Luther King, has been sentenced to the electric chair for the murder of the civil rights leader. The sentence was handed down by a federal judge in Memphis, Tennessee, after a trial that lasted for several weeks. The judge found Ray guilty of first-degree murder and sentenced him to death. Ray's lawyers have filed an appeal of the sentence, but they have not yet been granted a stay of execution. Ray is expected to be executed on April 3, 1968.

It is by this that the lion centre of the Republic should be Quebec, where more than 240 winters last something of the chilly truth of our love and snows. Long before our Fathers set foot on Plymouth, the French Canadians had settled Quebec. Here started the custom of winter travel during the months of snowfall.

The Bashaw Star

VOL. 14. Subscription: 52 Year, U.S. \$3.50 BASHAW, ALBERTA, WEDNESDAY, JANUARY 26th, 1928. R. S. Burns, Publisher. No. 31

LOCAL SENIORS DE-
FEAT STETTLER 6-3

Stetler's team met Bashaw by
2-0 Score—Buck Good Game

Two good games of hockey
were played at the Bashaw rink
last night in which Bashaw and Stetler
divided honors, the local ones
winning by a 6 to 3 score, thus
making up for the 6-2 beating
of a week ago, while the Stetler
team lost to Bashaw by 2 to 0.

The junior game got started
well on time and the youngsters
put up an nice brand of hockey
from ball to ball with no life
accounts for players or fans.

The ice was fast and the lads
traveled at a high rate through-
out. Stetler got their first in the
opening period on long shot
and got number two half way
through the second period. To
they might the locals couldn't
score and the game ended 6-3
in favor of the visitors.

The senior game was late in
starting but once under way the
teams made up for the long wait
and the fans got a real thrill.
Play opened at a break-neck
pace with play mostly in the
Stetler end for the first eight
minutes when Bashaw broke
home the first corner to be fol-
lowed a few minutes later by a
goal off Wall's shot. The net
was then empty for the rest
of the period arriving with Bashaw
in the lead by a 2-0 count.

In the second period both
teams combined two each. Bashaw
and Wall's accounted for the
Bashaw's markers, while Wright
and Duckworth scored for the
visitors. This was the first
goal of the game, both teams
travelling fast and back-check-
ing constantly.

BRITISH ENVOY AT OTTAWA IS IN PROSPECT

This subject need not be so trivial as it at first seems; though no doubt it is often considered but by will or convenience to put in a word or two.

Amery said and pointed out the principle of such an appointment is considered at the last Imperial Conference. It was decided by resolution that such a representation between Great Britain and the Dominions would be an excellent thing for the Empire.

is the representative of the Government of the United States in the Government of the British Colonies, and of the British Colonies in the Government of the United States. It was held down in the United States of the Imperial Conference for a generation at least and a British government added a the General to interfere in the affairs of the government of a self-governing institution.

Higher Prices To Encourage Leather Industry Aid To Be Only Temporary

Admiral "A world shortage of leather and leather, which is appearing almost famine conditions in some countries, has created a trying and difficult situation for the best and most important leather goods industry," declared R. Roy Wilson, manager of the New York Leather Goods Association, Inc., in a statement.

The speaker added that an increase of 33 per cent of interest in the previous month and above was necessary in order barely to cover the cost resulting from the 36¢ advance.

LOCAL AND PERSONAL

The junior hockey team played in Stettler last night.

Art Symons was a busy visitor in Camrose Friday.

Capt. Danney was a passenger on south bound train Saturday.

Mr. and Mrs. Philip Wilbert returned from Edmonton Friday.

Basil Symms of Hahm's spent a few days with Mr. and Mrs. J. A. Hale.

A local branch of the Moose Order was instituted here Monday night.

We understand Lynn Wilson has rented his farm for the coming season.

J. R. Whitney reports the sale of the Charlie Neiland place to Louis Dubois.

Ralph A'ling passed through here Friday on his return from a trip to the coast.

Roads to Camrose, Stettler and Lacombe are open for motor traffic from this point.

Mr. McKernie of Three Hills spent part of last week with his daughter, Mrs. J. Sile.

Ray Whitney was laid up for a few days the past week the result of a horse falling on his leg.

The committee who will interview the government or the Dorence road will go to Edmonton this week.

The many friends of Dave Horton will regret to learn of his illness at his home here, and wish him a speedy recovery.

W. J. Smith, local specialist of Red Deer, will visit Bashaw on Thursday, Feb. 23rd and every third Thursday in the month thereafter.

The Elks will stage a series of whist drives during the coming months, the first of which will be held Thursday evening in the Majestic theatre. All welcome.

We received a note from Geo. Webb, who is now livestock pool manager at Vermilion, stating he likes his new location and wishes to be remembered to all his friends here.

NOMINATIONS FOR COUNCIL MONDAY

Nominations To Take Place in Fire Hall between 8 and 9 p.m.

The annual meeting of the Village will be held in the fire hall Monday evening next, Feb. 6th, commencing at 7 o'clock.

The first hour will be devoted to a discussion of Village affairs, then from 8 until 9 o'clock the meeting will be thrown open for nomination of councillors, three to be elected, one for three years, one for two years and one for one year term. In the event of there being more than three nominated then elections will be held one week later, on Monday, February 15th.

Just who will make up the new council remains to be seen and who's matters in that connection are rather quiet at present they can be counted on to warm up considerably over the week-end.

MRS. KEBOR PASSES AWAY

The death took place at the Camrose hospital on Monday of Mrs. J. Kebor of Mirrie following expiration of a grievous illness. Mrs. Kebor died on Wednesday last week. Rancor sympathy will be extended to the bereaved family in their sad loss of a well-loved wife and friend throughout the Bashaw and Mirrie districts.

Mirrie, Jan. 29.—Mrs. J. Kebor of Mirrie is in the Camrose hospital in a very critical condition as the result of painful rheumatism while Mr. and Mrs. Kebor were pumping gasoline through a gasoline lamp. A lighted coal lamp was nearby. The gas line shot out through the top of the lamp and exploded. Mrs. Kebor rushed outside, a mass of flames, and was rescued by a neighbor who had Mr. McLennan attending her a few minutes afterwards. Over one-third of her body is burnt and she is suffering terribly. Mr. Kebor's hands were badly burnt in trying to extinguish the flames.—Edmonton Journal.

Mrs. Third of Edmonton is the sister of Mrs. Ansel.

N. J. Hek was a business visitor in Calgary this week.

HOCKEY NOTES

Stettler 2 at Bashaw 3

In one of the most interesting hockey games played at the rink this week the Stettler midges lost their first defeat at the hands of the 'red' youngsters by a 3 to 2 count.

The game throughout was fast and quite played along his all when on the ice and several on the young lads displayed a nice blend of tricks and some clever stick handling, and the crowd got a big kick, and were set to cheer the lads on. It was a clean game throughout. For the 'reds' old Loughey, Ted Holt, Geo. McDonald and Charlie Corvill worked hard, for Stettler, Skinner, F. Corigan, Sherry and J. Slesky were best.

The line-ups were:

Stettler—J. Slesky, Skinner, Dunn, F. Corigan, K. Slesky, B. Corigan, Sharp, Blair, Mackie, Bashaw—Sproule, Loughey, McDonald, E. Holt, N. Holt, Corvill, Weir, Cook, Trell, Williams.

Junior Defeated at Stettler 3-1

The juniors played their return game at Stettler Tuesday night of last week and took the same 1 end of a 3-1 count. On the nights play the 'reds' had as much if not more of the territory play but lacked the punch to finish their play by netting the 'reds', many fine opportunities to score going begging.

CALUMNIES

Mrs. A. Walter of Burlington is paying a visit with her parents Mr. and Mrs. A. G. Berquist.

A quiet wedding was celebrated at Calgary, when Mr. P. Anderson and Mrs. Laura Sporen were united in marriage. Congratulations.

Mrs. Wm. Nystrand and child, Mrs. T. Burdett and baby Phyllis are leaving for Vancouver Tuesday where they will join Mr. Nystrand and Mr. Burdett.

Mrs. Chas. Melcher and Miss Chas. Berquist attended the U.F.A. convention at Calgary last week.

A large charivari and kitchen shooes was rendered by combining communities to Mr. and Mrs. P. Anderson on Saturday evening the 21st. After congratulations had been extended to the bride and groom all took part in 'tweety' games, after which a sumptuous meal was served. Before departing the bride and groom were showered with many useful gifts.

The Calumet U.F.A. local will have their next meeting at the home of Mr. and Mrs. M. Felt on February 8th.

Bashaw 4 at Stettler 5

The 'reds' lost at Stettler on Friday night when they blew up in the second period and allowed their opponents five markers to win a fast and easy game. Bashaw lead at the first period 2-0 and counted two more in the first period to be scored out.

The C.G.I.T. will hold a Valentine Tea at the United Hall on Saturday, Feb. 11th at 8 o'clock.

FINANCE STATEMENT LAKESIDE M.D. OUT

Annual Meeting and Nomination At 8:15 held on Feb. 19th

The financial statement of the Municipal District of Lakeside is now being mailed to ratepayers, and like its predecessor of 1920 shows an even healthier state, and one that will give pleasure to ratepayer and councillor alike.

"While the cash on hand this year is shown less than that of a year ago of about \$1000, the liabilities are much less owing about half of the 1920 statement. All in all the statement is a good one and shows Lakeside M.D. to be a excellent financial shape.

The annual meeting of the district will be held in the Skibo school house on Saturday, Feb. 19th, when matters connected with the district will be discussed. Nominations for councillors in the three divisions will also be made between the hours of 4 and 8 o'clock in the afternoon.

Divisions 2, 4 and 5 will nominate councillors this year, the terms of Revo Scott and Councilors Hunter and Urvet expiring with this meeting.

TRINDERS

For 15 ricks of green poplar wood, 16 inches long, split and piled on Schultz street grounds by March 15th. Tenders to be in by Feb. 11th at 5 o'clock p.m.

ANNUAL MEETING LAKESIDE M.D. 397

Attendance Not So Large This Year as at Former Meetings

The annual meeting of the taxpayers of the Municipal District of Lakeside No. 397, was held in the City school house on Saturday, Feb. 18th at 1 o'clock.

The attendance at this meeting was not as large as previous annual meetings.

Moved by E. Traver and seconded by G. Ulyett, that the returning officer, Mr. Lynn Wilson be chairman of the meeting.

Mr. Marshall was asked to act as secretary of the meeting.

The minutes of the last annual meeting held on Feb. 17th, 1927, were read and approved on motion of E. Traver, seconded by W. W. Scott.

The secretary gave a complete outline of the finances of the district, and outlined thoroughly the receipts and disbursements of the past year.

Moved by E. Hammerberg, seconded by L. Williams, that the district be read as accepting and that a hearty vote of thanks be tendered the Council for the careful manner in which the finances of the district had been handled during the year.

The matter of road inspection and the appointment of a road inspector was the subject of much discussion.

Moved by E. Stowell, seconded by E. Traver, that the assessment issue as carried out by the council in past years be continued, and that all taxpayers co-operate to the fullest extent with the Council in bringing about better conditions.

All those present pledged themselves to respect direct to the assessors all cases where roads were very bad.

Mr. Hunter asked for an expression of opinion on the granting of a bounty on crows' eggs and feet.

Moved by C. Stowell, seconded by J. Bergstrom, that this meeting recommend the consideration of payment of a bounty on crows' eggs and feet.

LOCAL AND PERSONAL

Forthcoming hockey team will play here tonight.

Mrs. Brad of Edmonton is visiting friends here.

Mrs. Demarest of Bonetown, Sask., is visiting Dr. and Mrs. Demarest.

Mr. W. J. Harris is visiting here.

Mr. Stanley Miller and children of Taber are visiting here.

Mrs. E. J. Harris, Clark Webb, Buckles and Miller moved to Lacombe Thursday night.

Mr. C. D. Cunningham of Calgary, formerly of Donalda, has taken an interest with Neash & Haggard in the Banshaw Garage and will assume his duties about the 15th of the month.

Mr. Claude Stowell is asked the meeting to discuss power machinery for road building.

He considered the time at hand when a caterpillar tractor should be purchased and all government road work done by contract with this outfit.

Such discussion took place on this matter and the Councilmen present promised to give the matter their attention in some future meeting of the council as a whole.

Properly at 3 o'clock the returning officer, Mr. Lynn Wilson called for nominations to fill the vacancies created by the automatic retirement of Councilors given at the expiration of the period of one year for amendment to the following papers were in hands of the returning officer.

Mr. W. W. Scott, Dr. E. A. Hunter, Dr. E. A. Hunter, Dr. E. A. Hunter.

All three candidates were declared elected by acclamation.

Moved by G. Ulyett, seconded by J. Bergstrom, that a hearty vote of thanks be tendered Mr. Wilson for acting as capable as chairman of the meeting.

MAKE THE GARDEN PAY

A booklet on gardening written especially from the farmer's point of view, and dealing with the special conditions found both in the north and south of the prairies, is now being distributed by the Bank of Montreal to its customers and friends.

Like the previous booklets on farming subjects issued by the Bank, the booklet covers every phase of the subject in simple language, and yet gives the methods and results proved by scientific experiment and research in the most profitable.

The value of the instruction given is immensely enhanced by reproductions of one upon 150 photographs and diagrams.

The directions in the booklet with a view of garden, proper selection of soil, choice of various varieties of vegetables, proper condition of soil and climate, selection and testing seeds, raising of young plants in hot beds, outdoor planting, cultivation and irrigation, insect pests and storage. Practically every variety of vegetable is covered in the book, and there is a section also dealing with small fruits.

While written primarily for the farmer, the booklet is equally valuable to country gardeners everywhere, in both north and south. Copies may be obtained, without charge, at the old office of the Bank of Montreal.

The regular Bank of Trade meeting and luncheon will be held in the Commercial hotel on Thursday evening at 7 o'clock.

DIFFICULTY OF MAKING TARIFF TO PLEASE ALL

MAKING IT TO PLEASE ALL

—

criticism. Dodge, however, in the tariff on woolens brought about discussion in the House of Representatives attached the charge as having been inspired by English woolen interests. The tariff, H. R. 11,331, House, Representative, charged, seemed to have been cooked by Hildebrandt and Redwood rather than by "American" or "English" J. A. B. Hoff further expressed comment of what he termed the interference of both American and English interests.

From January 3, 1904, methods of finance remarked that there were in existence where "American" and "English" interests.

The British Government through its Canadian Chamber of Commerce in London. Representations of a similar nature had been made to the governments of the United States, Argentina, New Zealand and Australia, in an effort to obtain privileges in those markets.

At this very moment said Mr. Robb, representatives of Canadian agricultural interests were at Washington, D. C., before the Canadian tariff board in connection with the importation into the United States of milk and cream. The minister said that the discussion proved the difficulty of making a tariff which would not even be a hindrance to the industry tonight had shown that the livestock industry was not even prosperous and that the T. A. B. in considering how best to help the livestock men of America

raising the debt on the finished form or giving greater rewards to the raw material. Mr. Hahn believed in the course taken, the latter man, who called himself to the people as "Baba."

Conscription Of Wealth

—Continued—

Manifesto I command You (address) Legion Under Revolution

"Whomsoever. Under-revolution of the revolution that property as well as men be conscripted in time of war was given by the third annual convention of the Manifesto Command of the United States, the British Empire Service League, and the International Association of the United States, that this resolution be submitted to the next convention of the British

Reaffirmation was given to a resolution on immigration, which recommended that the Dominion Government put into force the principle of the quota system from countries other than those of the British Empire and that at least 10 per cent. of all immigration be of British stock.

Lieut. and Ralph H. Webb, Winnipeg, was also present, as was the Mandate commandant, and E. K. Spencer, of Morden, Man., was elected Dominion representative.

Power Contract Closed

Mandinka Company, Will Supply Government With 50,000 Horse-

Winnipeg—The Manitoba Power Company has signed a contract with the provincial government to supply 20,000 horsepower annually from its site at Seven Sisters Falls. The contract will operate over a period of 50 years at the end of which provision is made whereby the government can take over the private plant on a publicly owned utility.

According to Hon. W. J. Major, Attorney-General, the power will be sold to the government at a rate of 12.50¢ per horse power. This figure, he claimed, was the lowest level ever received anywhere on the continent.

Alberta Legislature Proposed
Edmonton—After a session which lasted seven weeks, the Alberta Legislature was adjourned by Lieut.-Gov.

Agent Stivers prescience like Homer seemed to hit bulls. The final sitting was devoted to a debate on the railway question -- which Premier Stivers had previously announced may be made the object of a special millennium session, and the clearing order paper of three or four bills which were given final reading.

Capture Deer In Vancouver

Trappers in British Columbia, while engaged in clearing the forest in the west end of the city, two men captured a full-grown deer which it dashed toward them. A shot or two from their nearly exhausted men in order to prevent the animal. Where the deer came from is a mystery. It was no longer than the deer apparently travelled considerable distance.

DIRIGIBLE ITALIA MAKES FLIGHT OVER NORTH POLE

King's Day. Afternoon. Ended with much ice and fighting a strong southerly wind. The day's Italian was slowly making his way back to her base at King's Bay after a titanic flight to the North Pole.

Then Umberto Nobile succeeded in his second day's flight to the top of the world, and three Italian messages from the Pole, one to Pope Pius, telling the pontiff that he had dropped the العلم from entrained to him on the North Pole from the Italian, and the others to King Victor

While over the pole the flags of Italy and Milan and various other nations were dropped.

The stone, which was about eight feet high with a metal base, had a trophy in which was placed a message with the Latin by Pope Pius.

For two hours the struggle raged over the pole, reaching that spot at twenty minutes after midnight, when ten hours and forty minutes after leaving King's Bay.

At 2:30 a.m. the return flight began, the struggle following the

20th median to the half way point
about 3.5 miles from the pole and
then turning for King's Bay.

General Nafai, had planned to
send several men at the pole to make
observations, but the overcast
ruined at King's Bay indicated that
this part of the plan had not been
carried out.

Takes Responsible Position

Lindbergh takes Full Charge of the
Air Machine

bergh, who has been out of a regular job since he quit the air mail service more than a year ago to fly from New York to Paris, has gone to work for the Trans-Continental Air Transport Corporation.

Linsenberg's new position is a "Full time job," his employers said. As chairman of the corporation's technical committee, the famous aviator will have charge of selecting airplanes, motors, safety devices, routes, and flying schedules for the new coast to coast air mail service.

It is up to Linsenberg to say how

service between New York and San Francisco can begin. The contract already has given some time and considerable thought to the problems of the new job and it is believed the service may be inaugurated within six or seven months.

Four other aviators will serve as Lindbergh's fellow committee men. C. M. Keys, president of the transport corporation, who announced the signing of Lindbergh, said the committee's able on-line Washington committee would be made of long experience.

Alberta Forest Fire

Fire Raging On South Side Of The Athabasca River

Calgary Fire is raging on both sides of the Athabasca River where it joins the Slave River at Smith, divisional point of the Edmonton, Inuvik and D.C. railway, a telegram informed the Calgary office of the Dominion Forestry Branch.

J. H. Hall, supervisor of the Lac Seul Forest National Forest, is in charge

T. F. Helgeson, district supervisor of fire protection, said that the fire hazard in the whole Northern portion of the province was dangerously acute owing to last year's growth of rank grass and absence of rain to any extent so far this season. No damage has been reported.

"If present weather continued it will be very difficult to keep the fires under control," Mr. Helgeson said.

High to the Poultry

The poultry and egg industry ranks high in British Columbia and the total value of eggs and table birds commercially produced within the province in 1977 was estimated at \$4,000,000. In that year it is estimated there were 1,500,000 mature fowl on British Columbia poultry farms and in addition, close to 2,000,000 young birds.

RAIN IS NEEDED IN PARTS OF DISTRICT

Shower Have Passed Over Parts of the District and Mined Others

Rains the past week have fallen in some parts of the district to the west, south and east but the district to the north west of town has not received moisture which is beginning to be needed. A heavy rain fell for a time in the Tremblay district and another Sunday to the south of town. Mrs. Robt. Dean and Mrs. M. Dean, but more would be welcome. In the district to the north west of town the date there has been no rain and some complaints are being reported of slight damage to the crops. Heavy rains fell Sunday at Alisa, Mirror, from Peritosh to Camrose and west along the P.R. from south of Lambo to Leduc and west of these points. A heavy storm passed south of here Monday across the lower end of the lake and a good rain was reported all along its path east of the lake.

FENCE

The value of their fences weighing old country people had saving, converting one constructed right, "Horsehair, bull strong, pig-tail." Our laws should be adjusted so to equal it with the low. Some, like high-headed horse proud, will think all things to them allowed and they will strive to outstep the laws that common folk must keep. With wealth and power influence, a bolder group canps the fence. While other some will burrow low upon forbidden ground to go. Laws must have stinger, barb and bite to force high, light-strong pig-tail. Yet if men dodge all human laws another fact will give them cause. There is a law of consequence, more sure than any human fence, surrounding us both far and night, as deep as hell and heaven high, against all skill and strength and sight, the law of God. If God be builded right, horse high, bull-strong, pig-tail.

NEW NORWAY WON RAGGED GAME 12-5

Locals Without Services of Two Players Left Easy Victims

New Norway grabbed an easy win in the second home game of the Battle River league when they won by a score of 12-5 from the locals here on Friday night.

Without the services of either regular pitcher the locals faced a handicap. Fred Reay was put in the mound but New Norway took kindly to his offerings and ran in four runs in the first inning and two more in the second.

Les Reay took over the burden in the third and got by with but one run scored only to have the visitors chalk up three more runs in the fourth. Fred again took over the pitching and blanked the opponents in the fifth, allowed two in the sixth and another blank in the seventh.

Bashaw scored two runs in the third, added one in the fifth and two in the sixth for a total of five. Despite the loss of both Seis and Tullock, the team as a whole had an off night, bats that should have gathered in went for little and usually with men on base. Having got this out of their systems the boys felt they are just capable of duplicating Wetaskiwin's example of beating Ponoka here on Friday night, June 15th. The score:

FIVE REASONS
WHY WHEAT PRODUCERS SHOULD SUPPORT THE WHEAT POOL
1. Because your self-protection as a producer is incomplete and ineffective if private organizations can still exploit you by manipulating prices against you.
2. Because co-operation helps to uphold the standard of living by suppressing the element of profiteering in grain produced by your labor.
3. Because co-operation eliminates unnecessary middlemen and dividend hunting shareholders who take a heavy toll of the wealth produced by the farm workers.
4. Because the co-operative principle of "each for all, all for each" is the workers' ideal which wins can bring economic and social justice, peace and prosperity, to all throughout the world.
5. Because the farm workers ought to concentrate their resources in a central institution of supporting capitalistic organizations hostile to co-operative movements.

24 HOUR ELECTRIC SERVICE IS MYTH

The Calgary Company has Announced Control of Local Light Plant

Quite a war was given local electric light users when it was made known that the Calgary Power Company, who recently purchased the local plant for a sum stated to be \$100,000, would not increase the service to 24 hours.

The Calgary company assumed control of the plant during the week it was generally understood that an increased service would go into effect with the first of the month, but such is not the case, the company stating that such promise was made and the contract bears out this statement so we are informed.

The result is that we will continue with the service as in the past and at the same rate until such time as the company's own flow reach this point which will be this fall and may be the fall of 1929.

Below we publish a comparison between the present and proposed light rates. It is to be noted that the added to the list the rate per k.w.h., otherwise the figures are as given us. In the case of the service charge which is \$1.00 under the proposed plan, this added to the total charge and the deduction of 30 cents for prompt payment. Whether the company intend such reduction to be made does not seem quite clear, such points can only be settled with the company. Some other classes of the company are meeting with opposition from some and no doubt a meeting at which all these matters can be cleared up satisfactorily will be called.

The following will show how the present rates for electric light compare with the rates under the proposed new system for households. The figure inside meter rent in one case and service charge in the other, minus item in both cases \$2.00.

FOURTH FORTNIGHTLY GOVERNMENT REPORT

Barley needed what is in the soil shade in many sections of the province and all grains much needed and vigorous growth, according to telegraphic reports received Friday by the department of agriculture, for the fourth fortnightly report of the season. The entire province has benefited by the rains, which have been general during the past two weeks, and the attack which crops in some areas received as a result of delayed germination is rapidly recovered although some of the fields are somewhat patchy. Warm growing weather is now the most urgent requirement for crops to take full advantage of the abundant supply of moisture. Never in the history of the province has a crop been under better conditions as far as high quality of seed and soil moisture is concerned, and never has more concerted action been taken to keep fields free from noxious weeds.

Conditions are reported generally to be ideal for breaking and summer fallowing, and the opportunity is expressed that the average of new land to be sown under this season will again be of record proportions.

Some seven thousand acres have been seeded to sugar beets in the northern part of the province, and of this acreage only one third is reported to be showing a perfect stand, with the remainder giving promise of a good average crop.

Cutting of alfalfa and sweet clover has commenced in the south but has been interrupted to some extent by the rains. Very local hail damage is reported in one or two districts, but crops in the affected areas are making a good recovery. Practically no insect injury to crops has occurred with the exception of the appearance of wireworms in some northern districts.

Crops in the Peace River country are well advanced and in view of the increased acreage under crop this year in the north conditions generally are considered promising for heavy grain shipments next fall and winter.

PAIR OF MOCKING BIRDS AT MR. L. E. HUMPHREY'S

Mr. L. E. Humphrey of the Lake Bend district informs us that he has a pair of mocking birds nesting at his place, and that he has seen the birds at night the mother keeps up a constant chattering of the other birds around. The mocking bird is a rare visitor to Alberta and the birds are extremely tame so one should be taken advantage of by those interested.

HASHAW TEAMS DID WELL AT WIRROCK ON MONDAY

Local baseball teams did well at the Mirror sports on Monday when they got two out of three games.

The senior team drawn with Olive in the first game of the day won against the Farmers (Baldwin) latter, by a score of 6-2. The team in the first inning, drew in one each of the third and fifth, and two more in the 7th. Olive rallied once in the sixth and another in the seventh.

The junior team defeated Mirror junior in the morning game by a score of 11-1. The afternoon Mirror girls won over the locals by a score of 15-4. Hashaw juniors played a second game at Mirror yesterday afternoon, while the senior team played Mirror last night in the final, Mirror having won 4-1. A is the second game.

Local lads also won several of the field events on off.

NEWS OF THE GOLF CLUB

Messrs. Rasmussen, Hume, Wells and Burns motored to Banff on Wednesday to take part in the Herald golf cup competition. R. Burns was the right to go to Calgary with a combined score of 179 for the two courses, W. Riley of Banff was second with a score of 180.

Local golfers are requested to close the gates to the grounds when playing over the course in the evening and thus assist Mr. Bailey to keep his stock in. Recently the owner has been put in a good deal of trouble in the morning to round up his work horses.—Fleming messenger.

J. P. Gordon of Edmonton was a holiday visitor.

FIRST CUTTING OF CROP UNDER WAY
RUD. BUREAU, B.H. MRS. KATY, SWEET CORN

A. A. Charleworth Commenced cutting barley Monday and Mrs. J. M. A. Pagen commenced cutting barley Monday.

The first cutting of the 1928 crop brought our attention was by A. A. Charleworth who started cutting barley on Monday morning on Tuesday M. A. Pagen commenced cutting barley wheat on the farm northeast of here.

This is the earliest for any season of which we have record for cutting to start and while it will be another week or ten days before harvesting will be general, the crop is rapidly nearing maturity and the hum of the binder will soon be heard on all sides.

The south crops are from a week to ten days behind while mowing the corn and the same can be said of the districts to the north and west.

The general outlook for a better than average crop and while there are many optimistic reports being made it is doubtful if they will stand up when the thrashing returns come in. In many cases there will be heavy losses for weeds this fall, the crop on the whole shows a better percentage of these points for some seasons past a disaster.

However, a good stand of all grains throughout the district with here and there some bare spots on the knolls which will under the average yield, but these are not bad as yet, but the weeds in most cases are.

SAVING CROP REPORT
ISSUED BY GOVERNMENT

What at cutting will be fairly good in all sections of the province by August 25th, according to Friday by the department of agriculture for the seventh of the influence of the immediate showers and warm weather after the last report and early snows are turning crop rapidly.

Harvesting of fall wheat has started in some southern districts and a very satisfactory report is reported, although the unusual drought during the month of May.

A good deal of the fall crop is in stock and a good average yield is expected when this is thrashed. Heavy stands of corn and barley are reported and harvesting of these grains will be general during the last week in August.

Limited areas through the north and western parts of the province have been visited by damaging hail storms during the last ten days but heavy rain from the east has considerably lessened the damage.

The 1928 crop has been particularly free from the attacks of insects and diseases.

Cutting of early wheat has commenced in some districts in the Peace River and later crops are receiving the benefit of good rains which are in the district, the crop is reported as belonging to 1928.

The first cutting of alfalfa is in the stock in southern Alberta and the second crop is making rapid growth. Root crops are recovering well from the setback occasioned by the excessive rain of June and are promising a very satisfactory yield. Farmers are having an exceptionally good season, as a result of which livestock is in very good condition in all sections of the province.

Several light showers have fallen over the district the past week with no real rain, but the crops are in good shape.

CUT SEASONS FIRST GRASS
A. C. McPherson's first grass cutting was made on Friday, August 10th, and was a very satisfactory yield.

Several light showers have fallen over the district the past week with no real rain, but the crops are in good shape.

FARMERS DECIDE TO SEEK PROTECTION OF PRODUCTS

Bethair, Aug. 18.—Conservation of water power rights as a public utility and a demand for protection on farm products, featured resolutions passed unanimously by the Canadian Federal F.U.A. constituency association in annual convention at Bethair last week. Before the meeting closed an unanimous vote of confidence was tendered W. T. Lucas M.P. for his services.

The district was well represented by U.F.A. leaders, including 40 and the majority of the hall was taxed to accommodate the delegates and their guests.

A spirit of harmony pervaded the discussion and there was an entire absence of dissension this year.

W. T. Lucas, the sitting member, delivered the opening address of the day, reviewing the work of the association. He was supported by William Irvine, M.P., A. G. Andrews M.P., A. Deane, and A. L. Saunders, M.P., all of whom, who also addressed the meeting.

Some important resolutions were unanimously passed. One requested conservation of water power and mineral rights in the interests of the people as public utilities and also the Alberta farmers to protect themselves to protect themselves in the matter. Other resolutions dealt with immigration, rural credits and tariffs.

An interesting feature of the places on the tariff resolution which was passed by the convention. The level seemed to be that while the manufacturer is enjoying the benefits of having free trade and protection by having his raw materials admitted duty free and his manufactured products protected, the farmer is favored in neither way.

The case of the Australian treaty was given as an illustration and it was stated that what protection the farmer formerly enjoyed in dairy products, had been removed to such that the manufacturer might gain access into Australia for his manufactured goods.

Walter Martin, a delegate from Camrose, stated that since it seems impossible to get any reduction of the tariff from the present government at Ottawa, the best thing the farmers could do to get all the protection they can from the commodities they produce themselves.

The resolution carried a rider requesting the entire U.F.A. to clearly define the plank leading with the tariff at the next annual convention and that a resolution to be carried out.

The following officers were elected: President, Hector McKenzie of Sedgewick; vice-pres., Mrs. L. Harvey of Wray; secretary, Mrs. Edward Kline; Camrose; hon. sec., H. Rayson of Banff; J. P. Peters of Edmonton; G. Hayward of Gadsby; J. V. Brad of Bethair and R. Price of Bethair.

BRAID, STORMS CAUSE A BIG LOSS IN ALBERTA
Calgary, Aug. 17.—Heavy insurance losses in Alberta, it was stated by managers of insurance companies this week, were fast approaching those of last year, which were the worst in the history of the province.

It was stated that from the particulars of the storm on the Sunday night of last week, which are now to hand, that conditions were not as bad as those reported by many losses were estimated.

There were really two separate and distinct storms, one 200 miles long and the other about 150 miles. One hundred per cent of the losses were in the areas where the storm struck the hardest.

One of the storm struck township 34, just north of Wray, and affected every house in the town, causing a loss of \$100,000.

year of the 8th, and running through to Saskatchewan. The other storm affected La Ronge, Pombia, Altn, Bethair, Gadsby, Cadzow and Red Deer, and through to the Saskatchewan boundary line by Connor. Insurance companies, it is said at the present moment, have claims from more than 150 towns, and it is estimated that several more are yet to be heard from. Since the conditions of the storm it is roughly estimated that more than 800,000 acres have been more or less damaged by hail.

Take a Ride and you will know

ONE of the most spectacular achievements in automotive history is the manner in which today's "Bigger and Better" Chevrolet is increasing its margin of leadership as the world's largest builder of automobiles.

Come, take a ride! Learn the reasons why people prefer Chevrolet.

Know Chevrolet performance! Wherever hills are steep, the firm of the Chevrolet motor is greatest—becomes it is built on the valve-in-head principle, which provides all the power advantages of overhead direct firing.

Chevrolet's delightful smoothness is achieved by the use of inner-crust alloy pistons, and by the accurate balancing of reciprocating parts.

Chevrolet flashes out and away when you open the throttle because it offers the advantages of light inner-crust pistons, large valves, and carburetor equipped with an acceleration valve.

Come, take a ride—today! See us at the

Engineer of Calgary Power Co. Making Plans to Build New

Mr. Ferguson is reported as admitting that the survey of the line from Alix to Bashaw via

It is also known that the company has a crew in the Hardisty district now finishing up and it is rumored this crew will be shifted to the Alix-Bashaw line on the completion of their present task, while Mr. Ferguson also stated it was the desire of the company to get their material on the ground before the late weather of late fall set in.

While their is no information at this end as to the hook up at Alix from Lacomba, a fair estimate places the time of building this end of the line at two weeks and if as good time is made from the other end a month should readily see the connecting line

the hydro line. Just whether such plans will work out smoothly or not, at any rate is apparent that the company is pushing construction rapidly.

both new and old construction because it gives advantages offered by no other material for safety, rigid strength, economy and cold and heat resistance.

All these vital advantages? And you get them in nothing but Gyproc. Gyproc costs no more than the products that have some of Gyproc's remarkable features.

Gyproc is fireable, permanent walls and ceilings in less time and at less cost than any other wall or ceiling material.

It's a fact. But a fact you can't see. It takes an X-ray to see it.

ASPIDIN

To break a cold harmlessly and in a hurry try an Aspirin tablet. And for headache. The action of Aspirin is very efficient, too, it comes of course, from its name, *aspirin*, from *Aspirum*. As there's no after effect; doctors give Aspirin to children—often mothers. Whenever there's pain, think of Aspirin. The genuine Aspirin has Bayer on the box and on every tablet. All drugs are sold without directions.

**Physicians prescribe Aspirin;
it does NOT affect the heart**

BRITISH LEADERS GAINS IN CABLE ELECTIONS

London. Eng. Labor leaders are stated over page 100 in the multiple elections in the cities and towns of the country. The results of the returns indicate that Labor candidates have made a net gain of 140 seats in comparison with the House of Commons while three principal opponents registered a loss of 71 and 123 respectively.

Results of the elections, stated in connection with the results of the returns, indicate that the Labor party is preferring to believe that the vote would indicate in some degree that the country is ripe for the general elections throughout the country next year.

Results of the partial returns indicated were made largely of the second round of the elections. At the London Labor party gained three seats from Conservative, Democratic and Liberal Unionist candidates. The general election of 1924 was won by the Tories. The House of Commons is now in a state of confusion.

A feature of the returns in London is the fact that the Labor party is

son was the candidacy of 456 women as compared with 244 who stood for election.

The 1925 elections resulted in the return of 148 of the women candidates. Only returns from the elections are far from complete. It is known that a number of the women headed the polls in their districts. Several women have already been elected to the municipal council of the borough of Poplar. The 31-year-old daughter of the mayor of Fulham was elected.

Unmarried men ran for office as a number of the boroughs and this type of candidate fared well in the elections. Three Communist candidates at Deptford were badly beaten. The mayor of Hammersmith was defeated in his own division.

Amnesty Day Letters

Two Million Letters Sent To America

From France

La Havre, France.—Two million letters, the largest mailing ever sent

from France, have started in America on the "French" campaign.

The new tanned delivery to American women about Armistice Day.

These letters, although advertising military and naval service, to provide game men. They have been addressed by hand by French war widows and are needed. The idea is that American men getting a letter from France on Armistice Day will think of the country where many sent their sons or husbands to war.

Largest Passenger Locomotives In The British Empire Are Being Built In Canada

Thirty-one hundred and One to be taken to come out of the shops. In one sense, however, the new law is a success and men, great stacks of asbestos are being bound by her nickel-stead sides. The great drivers and the heading and rear trucks are standing on the track behind, waiting for the power cranes to lower her from the jacks.

In a little while her better and her brother will be gone. When will the housing and that little group of men, in white clothes who have been talking about the new law, be gone?

thirty-one hundred and one was the second of the two largest passenger locomotives in the British Isles, and it was the last to be built in two months. Twenty-five hundred tons, all of them have made some of the longest hauls of construction material in the world, and their loads are also massive. It will be a great moment for them, as they are about to be put to rest in the great room of them, as did the others. The locomotives were built by the engineers and stonemasons who worked the platform of Windsor Station was the last of the great locomotives.

The superintendent of the station reviews this and other experiments in the report of the station for last year. The Department of Agriculture, at Ottawa, is shown that the butterfat test made on an average daily gain per animal of 3.5 pounds more than the lot received from the station of meat animals. The station of meat animals is shown that the lot of 3.5 pounds higher in the rib-softness test and it required 1.51 pounds more steam-milk to make a pound of gain than it did butterfat.

How You Indulge In The Most

While the design and construction of the Thirty-one Hundred was an one man's job, to one man fall the job of reducing the requirements to a final analysis, collecting the many ideas and forming one which would embody the wish. "My job," he says, "was to work with the architect in the selection of the photograph on the wall. What he did, in collaboration with

N. E. LEDGERWOOD DIED WEDNESDAY

Former Bawsh Business Man
Passed Away at Jarvis

Nathaniel Edward Ledgerwood, general merchant of Jarvis, Alberta, who has resided for the past four years, passed away at his residence on Wednesday morning, November 23rd, aged 54 years. Before moving to Jarvis, the late Mr. Ledgerwood had lived at Ponoka where he was mayor at one time, and also in the Bawsh district. He came west forty years ago from Lantz county, Ontario. Besides his wife, deceased, survived by three sons, Nathaniel, Charles and Harold all of Jarvis, four daughters, Mrs. J. Lind, Edna, Edmonson, Mrs. C. A. Bond, Westock, Mrs. J. Howell and Edith of Jarvis, and three brothers, William and Robert in Manitoba and James in Ontario. The remains were brought to Edmonton Wednesday night and forwarded to Ponoka on Friday morning where the service was conducted at two o'clock at the Baptist church, Rev. Mr. Watson officiating, interest being taken in the Ponoka cemetery—Edmonton Journal.

The news of the death of Mr. Ledgerwood came as a distinct shock to this district and sincere sympathy will be extended to the bereaved family in their loss. The late Mr. Ledgerwood was one of the early merchants of the town and took a prominent part in the welfare of the community. Being connected with the educational board, church and fraternal organizations during his residence here and in Jarvis in all his activities in the growing village in the spring of 1918 he disposed

THE MURAL RHYMES THE OTHER FELLOW'S JOB

I want to be a plumber, I think I'd like to. I could forget a wrench or two 'most every time I want to be a preacher, I know I'd like to preach with all the pious sermon so easy for to preach. I'd like to be a farmer, I'd like to be a farmer, a hired man to do the work and me to be the boss. I'd like to own a little farm. As soon as I'd learn it the soda licks and greasy creeks could tell me how to run it. I'd like to get it the switch-board girl with nothing much to do but work some plugs and say "hello" the day and evening through. But if I think my job is worth and all the rest are paying. I'd better try to earn my tips a while some other way. The preacher must pretend to know but the melted lead is split; the farmer's like a hick in the morning of the big looking farm and some folks be fair would like and all the other workers have their trouble the same as we. The bell girl with gentle voice she does it m'body well. I think I'd say "hello" with accents on the "chee".

BOB ADAMS

of his store business to McMan Bros and for a time conducted a contracting and building business here but through ill health he was forced to leave the town and for a time resided in the States. He was a member of the Bawsh district and again entering the general store business which he carried on here from time to time with his health was not until recently that he became seriously ill and was unable to attend his business.

LOCAL AND PERSONAL

Less than three weeks to go for Christmas shopping. Miss J. A. Schell returned from Kelowna Saturday. Mrs. Demore returned from Edmonton on Monday. Mr. and Mrs. Gillespie have moved to Westlawn. We are sorry to report the serious illness of Mrs. Lakey. John Jarvis is undergoing medical treatment in an Edmonton hospital.

Ducks are still reported in the district, two ducks being sighted Monday afternoon. J. H. Ansel has resigned from his position as manager of the local Post office. The local Post will stage their first dance of the winter season in the local hall tonight.

Mrs. Dillfield returned last night from a visit to the friends of her late husband. Mrs. Stivers of Prince George arrived here Monday and is staying at the local hotel. Mr. and Mrs. J. A. Schell are expected to arrive from Kelowna this week. For particulars see page two. Mr. Dillfield, 414, arrived here last of local 414 attended the institution of an R. E. Lodge at Inverness Monday.

An agreement of the new six cylinder Chevrolet car will be found on page three this week. Quite a number from town attended Mrs. Mels' barn dance last night. The local school will be closed for the day on Monday. Thirty essays were received by the committee in connection with the local school competition on Monday last.

"Circus Crook" one of the best comedies filmed is showing at the local theatre Friday night and Saturday of this week. Mrs. Holgate, Margaret and George of Edmonton and Mr. Holgate of Bonaville, Ontario, were guests of Dr. and Mrs. Demore this week.

Sam Walberg and Edna Schell had a narrow escape from serious accident when their car took the ditch on the Calgary trail near Inverness Monday a.m.

H. J. A. Bell, special agent of Red Deer, will visit Bawsh on Thursday, Dec. 29th, and every Thursday in the month thereafter.

An air mail service starting Dec. 15th, Edmonton to Regina via Saskatoon will be inaugurated. First air mail will go for the first time, and ten cents each round trip. Registered mail will also be accepted.

The Family Herald and Weekly Star of Montreal is not only a family paper but a money saver to the farmers of Canada, while the farmer's family circle, in the contemporary magazine, gets what is suitably to be the best of all.

POSSIBILITY OF NO HYDRO LIGHTS HERE THIS YEAR?

It is not in the arrival of the hydro electric lights rushing along this winter is a live topic and the question is being asked weekly as to when the town can expect the arrival of the Calgary Power line. Rapid highway was made with the line connecting the town on this end and each week citizens make trips to learn of the progress with the result that they feel sure the line will be turned on next month than December last, but as nothing definite can be arrived at as yet, the town is beginning to feel that we won't get it this year.

Stuntmen stories are in large part true. The probable cause of the one given the most credence being lack of power to carry the additional load. During the past winter many hydro points in the province have been "booked up" while the additional power to be generated at the new site on the Ghost river is not yet completed. Some talk is heard of running A's and Mirrors from Red Deer for the coming winter and the new power is ready and possible Bawsh from the same source providing enough power can be generated, or leaving the present plant to operate locally. While all of these are mere rumors nevertheless many feel there may be more than a grain of truth in the reports. So far as there being any possibility of furnishing "juice" from Bawsh for A's and Mirrors this is out of the question unless heavier machinery is used. The local plant has all it can handle to carry the present load and at times even this is more than it can handle. The fact that the lights are many times shut off.

WALTER EDDY ALICE BEANS WEDDING

Water Eddy announces he is installing a new R.E. Central Potential Outfit which charges at 10¢ per hour. By this method each battery drives in just what current it needs and each battery is absolutely independent of every other battery. The new outfit has been thoroughly investigated, tested and found that it is recommended by the battery manufacturers and approved by the U.S. Bureau of Standards. More than 17 other shops are using it with excellent results. It is a matter of time that it replaces former methods entirely.

EXPECT TO HAVE RINK READY BY END OF WEEK

Flooding of the rink has gone steadily forward the past week and a good deal of ice has been made and with the present brand of weather or suitable ice making weather for the balance of the week it is expected to have the rink ready for opening about the first of next week.

Look of hockey is already to be heard and from present indications the town will again be represented by a fast team. While the club has not several members by removal and some of the older players have decided to hang up their skates, there is still the makings of a pretty fast outfit among the junior lads who are moving up to senior status and with these together with one or two new arrivals the "club" promises to be a pretty good one.

As to games, it seems more likely that plenty will be had for the asking with Mr. A. L. Farnish and Donalds all out after games, the first named having created new friends in their town this year. A meeting to organize the local hockey club is the next step.

WEDDINGS

SCHULTZ-WEINS

The marriage took place at Lutheran church on Thursday, Nov. 29th, of Miss Miley, eldest daughter of Mr. and Mrs. Joe Weins and Mr. A. H. Schults, eldest son of Mr. and Mrs. Fred Schults. Rev. Mr. Mueller officiating before a large gathering of friends. Miss Miley, sister of the groom was bridesmaid and Mr. Henry Weins, brother of the bride acted as best man.

Following the ceremony a delightful dinner was served at the bridegroom's home and the friends gathered and celebrated the event. Mr. and Mrs. Schults will make their home on the 24th. Congratulations.

25 BELOW ZERO MONDAY

The first cold spell of the winter arrived over the week-end with a blanket of two inches of snow falling on Saturday and Sunday and 25 below zero Monday morning. The spell broke on Sunday morning when but 6 below was recorded and it warmed up considerably during the day. This is the first cold of snow to hit this district since the first and real cold snap, the result will be no more golf for a few months say the boys.

MORE SPRING THAN WINTER WEATHER

Temperatures Above Freezing

Commodore Most Days

"Lively weather" is the most common remark heard on the streets these days as the sun shines brightly and the wind blows from the south.

The many friends of the sun and the wind are not the usual portion and expected.

With the exception of the sun and the wind, the only other thing that is new is the fact that the weather is so warm.

When December was ushered in, 16 years ago and under the sun and the wind, the weather was so warm.

The weather was so warm that the sun and the wind were not the usual portion and expected.

NEARING A BREAKDOWN

A Condition That Calls For a Reliable Tonic

Many women grow so much of their time in the care of their household that they neglect their own health and sometimes reach the verge of a breakdown before they ~~begin~~ realize that their health is shattered. Often the heart palpitates violently at slight exertion, the head aches, the stomach is full and discomfort follows. The nerves become weak and headaches grow more frequent. The body grows

which and they are always depressed. This condition requires a reliable tonic, as Dr. Williams' Pink Pills which save and build up the blood, carrying the red pigment to every part of the body. The value of Dr. Williams' Pink Pills is a random condition is shown by the following letter from Mrs. Aler Melrose, Housatonic River, Mass., who says: "About a year ago I was afflicted with a disease which left me very anemic. I was not able to get around as my usual rule; in fact I could scarcely walk with the least exertion. The heart was the least excited. One day I was sitting in my room, and an influx of applications for special government training in agriculture preparatory to emigration to Canada was sent me."

Assail Killed in Canal
Instant death came to Phillip H. Atherton, cadet, of Asheville, N.C., at Brooks Field here, when his plane went into a tail spin 300 feet above the earth and crashed into the porch of a barracks, wrecking the porch and completely demolishing the ship.

Altogether, now, says the Seattle Star.

OUTLINE *The Improved Glass Substitute*

COMES WITH A MESSAGE OF HEALTH

THESE are the all-powerful life producers, Nature's universal disinfectant and germ destroyer, as well as stimulant and tonic. They are the most powerful and effective of all health-giving agents. They are the most powerful and effective of all health-giving agents. They are the most powerful and effective of all health-giving agents.

Medical research has definitely proved that from the point of view of Health and Hygiene, the most effective among the sun's rays are the Ultra-Violet rays, which possess the greatest power for the prevention and cure of disease and debility.

Science has further established that ordinary window glass does not allow the passage of Ultra-Violet rays, so that by using glass we are artificially excluding those vital health-giving rays. However, the invention of WETMORELITE has completely remedied the long-felt want. Extensive experiments have conclusively proven that it is a highly effective substitute for sun, that it is easily

WALTER EDDY AUTO REPAIR WORK

Walter Eddy announces he is installing a new H.B. Constant Potential Outfit which charges automotive and radio batteries in 1-3 the time heretofore required. Constant Potential is not new, having been used for years charging railway car batteries. By this method each battery draws in just what current it needs and each battery is absolutely independent of every other battery on the line. Walter states he thoroughly investigated this modern equipment before purchasing his outfit and found that it is recommended by the leading car and battery manufacturers and approved by the U.S. Bureau of Standards. More than 17,000 other shops are using it with excellent results and it's only a matter of time until it replaces former methods entirely.

H. J. Snell, night specialist of Red Deer, will visit Bashaw on Thursday, Jan. 24th, and every third Thursday in the month thereafter.
